## EDUCATION

### Faculty of Philosophy

10/2017 - 6/2022

### English Philology

During my four-year program as an English philologist, I acquired a comprehensive understanding of the English language. My coursework encompassed a wide range of subjects, including grammar, syntax, translation, and literature.

### Highschool of Economics

9/2013 - 6/2017

### Tourism Technician

This educational program has equipped me with a solid foundation in the tourism sector, along with valuable skills such as effective communication, problem-solving, and a keen eye for detail."

## PROJECTS

### Project 1 - [Snow](#) || [CODE](#)

Created a responsive website using HTML, CSS, Bootstrap, and JavaScript. Implemented modern design principles for compatibility across devices and browsers. Used HTML5, CSS3, and Bootstrap for responsive layouts. Enhanced user experience with interactive JavaScript elements and dynamic content.

### Project 2 - [Quiz](#) || [CODE](#)

Built a compact English quiz web app using HTML, CSS, and JavaScript. The app is interactive, allowing users to assess their English language skills. Designed a user-friendly interface with HTML and CSS for seamless navigation. Included engaging features that enhance user engagement and facilitate effective learning.

### Project 3 - [E-commerce website](#) || [CODE](#)

Developed a responsive E-commerce website using HTML, CSS, Bootstrap and JavaScript. Implemented categories and products, products can be sorted in a grid or as a list, users can open a modal and provide contact information.

### Project 4 - [Grapxo](#) || [CODE](#)

Re-created a figma design using HTML, CSS, Bootstrap and JavaScript. Implemented a responsive design that makes the project fit all screen sizes.

### Project 5 - [Nexcent](#) || [CODE](#)

Developed a pixel perfect modern website landing page from a figma design using HTML, CSS, Bootstrap and JavaScript.

### Project 6 - [European population statistics](#) || [CODE](#)

Developed a Full Stack web application. Using HTML, CSS, PHP, MySQL, Bootstrap, and JavaScript, the website provides information on European countries through front-end RESTapi and a table that pulls SQL database information and displays a table with changes in population in the last 20 years.

## WORK EXPERIENCE

### Jadore-perfumery

07/2023-Present

#### Technologies:

- TypeScript
- HBS (handlebars)
- CSS

### Front-end developer (freelancer)

[Github](#)

- Designed layout for an appealing user interface.
- Ensured full responsiveness across devices.
- Integrated a DB API for product browsing.
- Implemented a persistent shopping cart using Local Storage.
- Collaborated on GitHub for transparent development.
